- Problem Solving
- Analytical Skills

## SUMMARY

Computer Science Student | Aspiring AI Enthusiast  
Fueled by a passion for Computer Science and Artificial Intelligence, I wield diverse programming languages - Java, C, PHP - and front-end tech like HTML, CSS, and JavaScript. With a firm grip on web development, I excel in using the Laravel framework. My practical journey involves designing websites that elegantly fuse aesthetics and function. Beyond technical adeptness, I lead Social Responsibility initiatives, driving impactful community projects.

## WORK EXPERIENCE

### Head of Social Responsibility Department

*September 2021 - June 2022*

- Orchestrated impactful campaigns: Breast Cancer, Heart Disease, Green Initiative, Spread the Warmth.
- Led transformative trip to underprivileged areas in Egypt, building roofs, painting houses, and connecting water.
- Successfully fundraised for and distributed Ramadan boxes to those in need.

### Developer Intern | [Blue]

*June 2023 - August 2023*

- Collaborated on projects like a YouTube clone and a transaction spreadsheet app, actively participating in design, coding, and testing phases.
- Designed user-friendly interfaces, merging aesthetics with functionality, and employing HTML, CSS, and JavaScript.
- Led the end-to-end development of a hospital management system and its website, mastering the Laravel framework for efficient solutions.
